No Added Formaldehyde (NAF) Declaration

JDS-NAF-2026-01

No Added Formaldehyde (NAF) Declaration

Document Version: V2.0

Revision Date: May 23, 2026

Prepared by: Guizhou Jiadesai New Material Co., Ltd.

1. Product Information

Product Name: HPA Eco-Friendly Adhesive Powder

Product Type: Wood-Based Panel Adhesive System

Manufacturer: Guizhou Jiadesai New Material Co., Ltd.

Manufacturing Address: Economic Development Zone, Cengong County, Guizhou Province, China

2. Core NAF (No Added Formaldehyde) Statement

No formaldehyde-based resin systems are intentionally added during the formulation or manufacturing process of this product.

This product belongs to the **NAF (No Added Formaldehyde)** product category.

3. Testing Standards and Measured Data

Test Standard: ASTM D6007-14

Testing Agency: SGS-CSTC Standards Technical Services Co., Ltd.

Formaldehyde Emission Result: Not Detected (ND)

Detection Limit: 0.01 mg/kg

Report No.: CANML2202926101

SGS Sample No.: CAN22-029261.01

TEL: (86)400-168-0866

4. Compliance Reference

This declaration is prepared with reference to the definitions related to No Added Formaldehyde systems under CARB ATCM Phase II and TSCA Title VI. It is intended solely as a technical evaluation reference document and does not represent any official exemption certification.

5. Scope of Application

This NAF declaration applies only to:

Indoor plywood, interior decorative engineered wood panels, furniture boards, and other indoor application scenarios.

It is not intended for direct use in outdoor high-weather-resistance or specialized structural engineering boards without prior testing.

6. Disclaimer and Limitation Statement

- (1) The product is formulated without intentionally added formaldehyde; however, trace amounts of formaldehyde may naturally exist in raw materials or the environment, which are not considered intentional additions.
- (2) Actual formaldehyde emissions and environmental performance may reasonably vary depending on wood species, manufacturing process, hot-pressing parameters, workshop environment, and other factors.
- (3) Customers are advised to conduct independent third-party testing and production validation according to their own manufacturing conditions.
- (4) This declaration serves as a corporate technical reference document only and shall not be regarded as the sole basis for NAF certification or legal compliance. Final market acceptance shall be subject to local regulations and third-party testing results.
